Education

University of Alabama at Huntsville	Huntsville, AL
<i>Bachelors of Science in Aerospace Engineering</i>	2026 - Current
Honors College Freshman	Class of 2030

Professional Experience

Undergraduate Research Assistant	
<i>Robotics Control Lab</i> under <i>Dr. Farbod Fahimi</i>	Huntsville, AL
Currently designing a data-collection circuit with a Pi Zero and plunger-style limit sensors to detect harness to ground contact on a humanoid robot during training.	August 2026 - Current
AEOP Research Internship	University of Memphis
<i>Computational Fluid Dynamics Research Intern</i> under <i>Dr. Daniel Foti</i>	Memphis, TN
- Authored “Background Removal in Cavitation Flow using Machine Learning,” outlining a novel method to eliminate background noise from cavitation videos while preserving vortex shedding eddies for joint research at the University of Memphis and the University of Michigan. - Implemented a Spectral DNS solver to simulate turbulent flows. Achieved high-order numerical accuracy without high-performance computing resources. - Studied computational fluid dynamics analysis techniques of spectral proper orthogonal decomposition through analysis of high-speed cavitation videos.	May 2025 - August 2025

Leadership Experience

Space Hardware Club Two Month	
<i>Electrical Team Lead</i>	Huntsville, AL
- Led a team to create the schematics and block diagram to design a Robotic Arm to perform various challenges. - Created a team structure of weekly sub-team lead meetings to facilitate further technical communications across the entire team.	August 2026 - Current

Memphis Buddhist Vihara Temple	Germantown, TN
<i>Community Organizer</i>	August 2022 - August 2026
- Help coordinate Vesek Day, a Buddhist holiday, for over 60 individuals. - Led a small band to perform in front of a 30-person crowd. - Taught and reinforced Buddhist scripture to children at the temple.	

Awards, Recognitions, Skills, and Certifications

Awards: 901Hacks Hackathon - 2nd Place with C# - Cash Prize \$125,
National Merit Commended Scholar, GMSD Top Scholar
All-State Clarinet in Tennessee
Coding Skills: Python, C#, C++
Software: Autodesk Inventor, Solidworks, EasyEDA, Ubuntu
Certifications: OSHA 10-Hour Certification
